Client Services

Commercial

Our considerable experience within a number of different industry sectors enables us to design and implement the most appropriate insurance solutions on behalf of our clients. With access to enhanced policy wordings relevant to individual sectors, we ensure the solutions we deliver are aligned to our clients' risk profiles and address the key risk issues associated with their sector. Through our extensive insurer network, our experts at Colmore are able to support a number of sectors including professions, technology, construction, food & drink, hospitality, retail, distribution & logistics, manufacturing and engineering to name a few.

Charity and Care Sector

With many years' experience within Charity and Care, we have represented a number of the UK's leading charity organisations. During this time we've become well acquainted with the challenges faced by charities, not for profit organisations and care related businesses. Our specialist Charity & Care Sector practice seeks to protect against associated insurable risks so you can concentrate on delivering your key services that many rely on, with the knowledge that you're well protected and advised.

Real Estate

We insure a range of property portfolios from one or two properties for residential landlords to owners' portfolios worth millions of pounds. With access to a wealth of products, each one tailored specifically to the property asset it serves, we ensure your investment is well protected, giving you peace of mind, whether you're a property owner, developer, manager or agent, or professional working within the property sector.

Private Clients

We recognise the importance of protecting your personal assets with enhanced cover. With access to market leading insurers, we can insure your home and household contents, collections, motor vehicles including marine, second homes and provide bespoke family or individual travel policies. Meet us in person and we'll look at any possessions, assets or pursuits that could benefit from insurance protection, before creating a personalised report of our observations, along with any recommendations.

Our capability and values

Every client matters to us. We are resolved to making sure this is constantly reflected in the service we offer. The values upon which Colmore Insurance Brokers has been established guide our daily operations, and ensure that we're forever attentive to the requirements of our clients.

Integrity - We are regulated by the Financial Conduct Authority and adhere to its core standard of Treating Customers Fairly. This means our clients can have the confidence that whatever advice we offer, it is delivered with their interests in mind.

Expert advice - We have years of combined experience gained from different organisations. This has given our team the strong expertise on which to build their firm, and enables them to take a holistic approach to risk and deliver bespoke insurance solutions.

Client focussed - The client is at the heart of all we do. We are an independent insurance broker with access to the leading insurers, and because we are not constrained by any of them, our services are steered by our clients' requirements.

Passionate - Only through our desire to make life easier for our clients and try to help them avoid financial difficulty can we seek out protection that will serve them well. We hope to meet all of our clients in person so we can fully understand any challenges they face and source outstanding risk solutions.
